

Freedom Cry

Lyrics & Music by Leonard Chen

E **B**
All across this land tonight
F#m **A**
We can hear the distant sound
E **B**
Sounds of people come to life
F#m **A**
Dancing from the freedom found

With one heart we come to you
All our pride we now lay down
Different people, with one voice
Singing from our broken hearts

E **B**
Set us free now as we dance
C#m **A** **E**
Show us now your hope for us
 B
Let your truth give us new life
C#m **A**
As we worship you

All across the world today
We can hear the people's voices
Sounds of freedom, don't delay
Crush our shackles through our praises
With one vision in our minds
All our hopes are vested in your word
We will wait until we find
All the promises you have in store

C#m **A** **E** **B**
You have met me in the darkest night
F#m **E/G#**
With just a simple word
F#m **E/G#**
Just a simple glance
F#m **E/G#**
Just a simple thought
 C#m **A**
You lead us through the night
